### Safety advice

To prevent personal injury or damage to property, aluPAR 56 and aluPAR 64 lamps may only be operated in suitable luminaires designed with suitable mechanisms (grids etc.) to ensure that in the event of a lamp bursting no parts/shards can escape. Because of the heat produced only heat-resistant lamp connections (holders) may be used. Do not operate near people, or any materials that are flammable, sensitive to heat or affected by drying out. Detailed information is available on request.
